

Covid 19 Plan

The Safety of your child is our top priority when school starts again. We will be doing a deep cleaning every morning with regular cleanings of touched surfaces every hour during the school day. The school will supply a "gaiter" type face covering/mask for each child to wear once getting on the bus in the morning until they are dropped off at the bus stop after school. We will be practicing social distancing in classrooms, during lunch and while at recess. Teachers will stress continuous hand washing throughout the day. We will ask that parents take their child's temperature before heading to the bus stop. If a child has a fever above 100.4° please keep your child at home. Staff will do a wellness check (ask a few questions and take their temperature) at the bus stop each morning and throughout the day during school. If your child is staying home please call the school to notify them of the absence for that day at (928)851-2213.
